THE VIDEO GAME

Now you can play the whole story of Star Wars Episode I: *The Phantom Menace*, Episode II: *Attack of the Clones*, and even Episode III: *Revenge of the Sith*, in a cool new LEGO way. LEGO Star Wars: The Video Game is out now on PlayStation2, Xbox, PC and Game Boy Advance. Game Designer Jonathan Smith gives his tips for success...

TIPS AND CHEATS

1. Use the Force

All LEGO objects are interactive. That means you can play with them in some way. As a Jedi character, as well as your lightsaber moves, you've got the ability to use the Force as well as do cool lightsaber moves! Use this power wherever you go, to reveal bonuses. Here, you can see Mace Windu using the Force to build a new platform from LEGO debris. Never miss an opportunity to experiment with the Force – you never know where it will take you!

2. Collect Mini-Kits

Each scene contains the pieces of a special LEGO mini-kit vehicle, hidden in white LEGO canisters. In the Parking Lot outside Dexter's Diner, you can see each of these mini-kits build up as you collect more and more canisters throughout the game. Some are hard to find, but you should persevere in your search. A completed mini-kit will generate a bonus of 50,000 LEGO Studs!

3. Collect Characters

The main reason for collecting LEGO Studs is to help you build your collection of LEGO characters. And that's important, because you can use those extra characters to reach new areas of each level in "Free Play". Different characters will become available for purchase in the Diner as you progress through the game; or you can use secret codes to unlock them (see below).

4. Collect Secrets

If you explore the levels thoroughly, and complete your mini-kits, and build your collection of characters, you should be able to amass many thousands of LEGO Studs. Ultimately, you'll be able to spend these in the Diner, to unlock some of the game's special LEGO secrets and extras.

Exclusive Code For LEGO Club Magazine Readers

Exclusive to LEGO Club Magazine readers, here's a code that will let you unlock a new character in the PlayStation 2, Xbox and PC versions of the game. Just give Dexter Jetstler (behind the counter at Dexter's Diner) the code DP55MV. In exchange for 25,000 LEGO Studs, you'll be able to play as the two-brained Jedi Master Ki-Adi-Mundi!

(Note: this code is for the PlayStation2, Xbox and PC versions, not the Game Boy Advance game.)

The Video Game is out now on PlayStation2, Xbox, PC and Game Boy.

Build the Fastest Ferrari!

The Ferrari Enzo is one of the most sought after street cars in the world. With the LEGO Racers Enzo set (8852) you can build and race your own replica of this powerful car. ■

1 Ferrari Fact

The Enzo is one of the world's fastest street cars!

2 Ferrari Fact

A powerful 12-cylinder engine provides more than 600 horsepower, launching the car from 0 to 60 mph (0-100 km/h) in just over 3 seconds. Buckle your safety belts!

3 Ferrari Fact

High speeds and bad tires can mean trouble, so a special type of tire was developed to help keep the speedy Enzo glued to the road at blistering speeds.

4 Ferrari Fact

Did you know that the Enzo is named after a person? Enzo Ferrari was the founder and original owner of the company that bears his name.

5 Ferrari Fact

Ferrari has a great deal of experience in Formula 1 racing, and many of the lessons it learned about building race cars were applied to the Enzo. It's high-revving V-12 engine, carbon-ceramic disc brakes, 6-speed manual transmission and sleek body style all were derived from Ferrari's racing experience.
